Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner has discussed the prior art teaching of Beerman. Examiner also suggested the applicant's representative to amend all the independent claims by incorporating "authorizing the downloading of information not otherwise addressed to any particular entity via the network to a terminal of the user identified by the address information associated with the identity tag" in order to overcome current ground of rejection. Examiner will be waiting for the response and will act on it accordingly.
